He has never ceased to regard himself ill treated and insulted. Being a proud and sensitive man the injury has not been forgotten

Report of the Interview.

NEW YORK, August 15—A Washington special says Secretary Richardson when asked about the truth of the report published said the Treasury Department is always making investigations not only in New York but in every port where much business is done. It is necessary to be constantly vigilant. Sometimes reports come from apparently disinterested parties while at other times charges are specifically made to Agents of the Department who have facilities for detecting frauds that Mercantile Committees little dream of. In this case (referring to New York information filed) it came from a man whose reports heretofore have been found strictly correct, sweeping though they were. It was the duty of the Collector to investigate. While there is good reason for believing that a number of the accused are guilty some may be innocent. I cannot say until I hear the result of the investigation what number will be discharged

In her possession was found a seven barreled revolver, empty. One of the other women was a wife of Emil Lowenstein. Another revolver was found on her with five barrels empty. Another woman, unknown, was also arrested. It is believed Weston's wife assisted Emil Lowenstein in murdering her husband, that the wife of Lowenstein witnessed the murder and that the other woman was cognizant of the affair. They were all taken to Albany to night.

Report of the Northern Pacific Survey.

NEW YORK, August 15—General Rosser charged with the railroad survey of the Stanley Yellowstone expedition has submitted to the authorities of the Northern Pacific Railroad Company in this city his official report of results accomplished by the expedition. The distance is 205 miles, 21 miles shorter than the survey of 1871. The expedition is now prosecuting the survey westward up the left bank of the Yellowstone to Pompey's Pillar where it will join the survey made last year from the west, and complete a surveyed line across the continent

Death of Kaiser Wilhelm Hinted At

NEW YORK, August 16—A correspondent writes that one of the events for which it is well to be prepared is the death of the German Emperor. Apprehensions about his case not so much from specific attacks of illness as from various signs insignificant when taken apart but full of significance when grouped together. His journey to St Petersburg, it is said, left a bad effect on his constitution. He returned rather tired of the continuous round of dissipation and tedious railroad journey. Soon after the Shah arrived to the physical fatigue incident to the part of host was added nervous suffering brought on by the eccentricities of his guest. It was supposed at one time that his illness was feigned in order to escape further interviews with the King of Kings. After the departure of the Shah he retired to Potsdam where one hot afternoon he suddenly fainted, falling forward on the floor and only after an hour was brought to consciousness. The Emperor is petulant and vacillating and has a morbid dread of being alone

THE FIRE WORSHIPPERS

[illegible] correspondent [illegible] the [illegible]

We have all heard of the Parsees. They [illegible] They are a race that [illegible] the Jews have [illegible] Here they [illegible] and are [illegible] They are the brokers [illegible] They never [illegible] others. They have their own [illegible] are highly educated. They take care of their own poor. They have great wealth and have elegant villas on Malabar Hill, the most fashionable part of the city. They have splendid horses and ride in elegant carriages. The ladies and children appear on the street dressed in silk. I never saw children so elegantly dressed anywhere. Many of the young ladies are very beautiful but are never allowed to receive visits from any but those of their own race. They are fond of amusements, and have a theater of their own. They are fire-worshippers. When the labors of the day are over they are seen along the shores of the sea facing the setting sun, with their hands clasped repeating their prayers. They have very peculiar notions of life, but their cemetery is more peculiar still. It is different from all others. We made a visit to their cemetery not knowing at the time that no one was admitted. It is a large tract on the best part of Malabar Hill. It is very valuable now, but it was purchased many years ago. We made application at the gate for admission and were refused. We appealed to a young Parsee, who happened to be passing. He was dressed in silk and very gentlemanly in his appearance. He said that no Europeans were admitted. We told him that we were not Europeans but Americans. He said he would be very happy to oblige Americans but could not, but did consent that we should go up the road outside the inner wall, and have a view of the city and bay. The sentinel took us along the winding road, and a rupee given to him acted like a charm. It opened all the gates and passed the police. There were no Parsees in sight to stand in our way and we entered the prohibited enclosures. These grounds are surrounded by a wall twenty feet high and have been used for a great many years by this strange people. There are no monuments in the cemetery. There are three round towers about fifty feet in diameter, and fifty to sixty feet high. On the top of these towers there is an iron grate. The dead are brought to the gate and delivered to the priests and the friends depart. The priests prepare the corpse and lay it on the grate, and it is devoured by the vultures, and the bones drop through the grate into the charnel house below. These towers or vaults are called the "Towers of Silena." We saw hundreds of vultures sitting on these towers and the sentinel told us that they would take all the flesh from the bones of a corpse in an hour. We asked why these towers? The sentinel, pointing to one, said 'Parsee with plenty of money, put there' to another, 'Parsee with but little money put there,' and the other, 'Parsee with no money put there.' The sentinel said, when a corpse is placed on the grate, the strife and noise of the vultures is frightful, and could be heard for a long distance. We saw those "Towers of Silena" and do not care ever to be any nearer

THE LATE LORD WESTBURY.

A correspondent of the New York *Times* says of him:

A few years ago he had to resign the woolsack in consequence of a scandal as to legal appointments having been obtained from him in a corrupt way. The corruption, however, was really on the part of his eldest son, who was soon after outlawed for debt, but the Chancellor felt that he could not, with dignity, retain his seat. Lord Westbury, after this, always warmly protested that he was a supporter of the Liberal Government, although it was the Liberals who turned him out, but his support was not always easy to be borne, and included a good deal of frank criticism which was the more damaging to his professed friendship. Not long since he addressed the peers as "your lordships who were still by courtesy called learned," and when he first entered the House of Lords the late Lord Derby had to remind him that the Assembly was not used to such a style of language as he had adopted. In consultation with another barrister he said, "You had better turn this over again in what you are pleased to call your mind." He was a keen and singularly lucid speaker, and went straight to the heart of a subject, but he was perhaps more ingenious than sound as a judge. One of the most famous decisions was that in favor of the theological essays and reviews which made so much stir a dozen years ago. A sarcastic epitaph composed about that time, thus commemorated him: "He abolished hell with costs and took away from pious members of the Church of England their last hope of everlasting damnation."

THE GOLDEN OPPORTUNITY.

The county committees of various counties have called their primaries and local conventions in accordance with the recommendation of the State Central Committee. Next Saturday is the time for holding the primary elections. At these primaries the complexion of the County Conventions and, through them, of the State Convention, will be determined. It would seem therefore that the primaries would attract considerable attention. Such is not the case however. Instead of the hubbub and excitement which have usually preceded the party primaries, everything is as quiet as if no election was expected to take place within the next decade. The delegations will most likely be selected by the few professional politicians who generally haunt the principal towns of each county. If the delegations thus made up should turn out to be such as would faithfully represent the whole people, nothing will be lost by the mode of choosing them. But suppose they are not such, but are men sent in the interest of this ring or that one; or in the interest of this politician or that. Then we shall hear something of a noise, and probably witness some scratching tickets at the final election on the 13th of October. Not enough of the scratching, however, in all probability, to be decisive. The candidates of both parties will be selected by the same method, the people staying at home and leaving the matter in the hands of those whom they themselves suspect of being controlled by personal and selfish motives. One or the other of these candidates will surely be elected in spite of the dissatisfaction of the people at being ignored in the nomination.

But the fault will be mainly with those who feel aggrieved, and not with those accused of wronging them. They have the power to select the man they want, and it is their own fault if they fail to exercise it. It is hardly likely, judging from present appearances, that the use of money and violence to carry the primaries will be resorted to now as it has been in times past. It looks as if the people were going to have at least an opportunity to be heard this time, and that opportunity ought not to be lost. Such a privilege is of too rare occurrence of late years to be made as a trifling thing. Should times become lively and money again be plentiful, there is no telling how many years it will be before the people get another show at the nominating conventions, so we, as one of them, are anxious to make the most of this chance.

THE STATE FAIR.

The Farmer calls attention to the fact that the time for holding the annual Fair of the State, under the auspices of the State Agricultural Society, will arrive soon, and urges upon its readers the importance of this general exhibition of the products and industries of Oregon. The Farmer well says: The Fair, in a certain way, epitomizes Oregon—the products of every kind of our various industries are annually gathered there, and they speak for themselves and tell what advancement we have made, and what advantages we offer for immigration to come here, and for men of means to bring capital here to increase our products and add to the development of our resources.

The success of the Agricultural Society is a matter of undoubted importance to the State, and it should be assisted as far as possible by every class of our population. All should contribute what is in their power to the exposition of Oregon products and manufactures, and should also add to the interest of the State Fair by attendance, for, next to contributing to the value and variety of the articles on exhibition, it is necessary to lend countenance and encouragement to the managers, whose duties are arduous and difficult in the extreme, and who deserve all the favor and encouragement the people can give. They have a serious duty to discharge in using the means at the disposal of the board to answer the ends of the Society. The expenses of the Society for improvements and repairs have been very heavy during the two years just past, and as a consequence of dull times the receipts have not fully met the requirements of the board. There are no such extra expenses to be incurred the present season, for the grounds are in good order, all the buildings and fences in good repair, and capacious enough to answer all the desired ends. So the Society will probably be able to carry on its operations and pay up its debts, as well as fully meet all present liability, but to do that we must all do our share toward aiding the ends it has in view by furnishing articles to exhibit, and also by attending the State Fair, and so contributing our trifle toward supplying the means needed to sustain it.

THE PROPOSED MARKET.

If we are correctly informed of the purposes for which the "Multnomah Market Company" has been incorporated, it is entitled to receive encouragement. The object of the organization, we are advised, is to erect a first-class market building on the south side of Salmon street, extending from First to Second. This is in the burned district. It is an excellent location for such an enterprise. It is centrally located, and would probably be convenient to as many residences as any other point that could be selected. It is easily accessible to the farmers, who bring their commodities to the city in wagons, and to all other persons who would have occasion to transact business at such an establishment. The building of a market at this point would prove a great convenience to the people of the southern and middle section of the city, would be a decided improvement to the city, and ought to pay a fair income on the investment. We hope to see this fine building take the place of the wooden ones that stood on the spot selected, before the great fire.

The proclamation of the Khan of Khiva decreeing the liberation of slaves in his dominion, is a document thoroughly characteristic of the subdued barbarian cringing in sack humiliation before his conqueror. Perhaps a Russian armament had quite as much to do as any other thing with the "penetration" of which the Khan tells us in the following, which is a literal copy of the decree:

"Penetrated by veneration for the Emperor of Russia I declare all slaves in the Empire of Khiva to be free, and the slave trade abolished forever. I command the immediate execution of this order, and severe punishment will be inflicted in case of refusal. All liberated slaves enjoy equal rights with my other subjects, and are permitted to remain in the Khanate. Should they wish to return to their native country, special measures will be taken. The liberated slaves are to assemble at the nearest market towns, and to present themselves to the authorities, who will inscribe their names on lists and inform the Khan of the number of liberated slaves."

At last there is an end to the terrible career of Lozada, the robber chief of Mexico. More than fourteen years ago, in the heart of the mountains of Jalisco, the fierce bandit set up his standard of revolt. Through these fourteen years he has held at bay such bodies of Mexican soldiery as could be trusted outside the national capital, emerging from his mountain fastnesses only to slay and torture with extremes of cruelty that made him the terror of the province, and characterized him as the most remarkable bandit of the century. He has been the Schamyl of Mexico, but he eclipsed his rival of the steppes in horrible outrages and unrelenting cruelty. His record revives memories of the old buccaneers, while it surpasses theirs in bloodiness. Lozada was betrayed and captured by one of his oldest comrades (Colonel Rosales). He was tried by court-martial on the 18th ult., and shot on the morning of the 19th. "He refused to have his eyes bandaged, and kneeling with his face to the firing party, died with great courage." This is the telegraph's brief obituary of "The Tiger of Tepic."

Many of the westside Republicans, and not a few who are not westsiders, we are informed, are desirous of seeing Dr. J. W. Watts, of Lafayette, nominated by the Republican State Convention for Congressman. Doctor Watts is not a man to press his own claims, but should he receive the nomination he will prove himself a match for the best talent the opposition can marshal against him. An Oregonian of 21 years' residence, he has the advantage of a thorough knowledge of, and identification with the interests of the State. It is not our purpose to express a decided preference for any one of the many good men who could be selected for the position, but we take pleasure in mentioning in this connection the name of a man of such sterling growth as Dr. J. W. Watts.

It is said that Mr. Gladstone was very seriously affected by the recent death of the Bishop of Wilberforce. They were very old friends, and had many curious points of sympathy. For several days the Premier was so unwell that his friends began to be rather alarmed about him. A few evenings since he appeared in the House of Commons "looking as thin and white as a ghost, and leaning wearily on a stick," says a correspondent. Mr. Gladstone has for some time been talking gloomily of his exhaustion and anxiety to retire from public life. He holds on to his office, however, with remarkable tenacity.

The audience question which has so long agitated the court of China, is finally settled by the following decree, which was officially promulgated in the Peking *Gazette*, of July 14th: "The Tsing li Yamen has presented a memorial to the effect that Envoys of foreign countries residing in the capital have joined in a request that they may have an audience to present letters from their Governments. We command that the foreign Envoys residing in the capital who have brought letters from their Governments to deliver, be admitted to have audience. Respect this."

Commissioners Sturgis, Thompson and Ritz last Saturday returned from their examination trip over the section of the Northern Pacific Railway from Kalama northward. There are sixty-five miles of road completed. It is expected that by the middle of October the entire line from Kalama to the terminus will be finished. The road is constructed in a thoroughly solid and substantial manner.

The proprietors of the San Francisco *Chronicle* are exhibiting their enterprising spirit by the introduction of the stereotype process in the printing of their journal. This is the first effort of the kind on the Pacific coast.

The New York *Tribune* of the 7th inst. contains a very touching and elegantly written tribute to Mr. Motley, induced by the report of the great historian's illness.

Mr. Allsopp, the famous brewer, has just been elected to Parliament from East Staffordshire.

PERSONAL NOTES.

Judge Hoar refers to Ben Butler as the Tichborne claimant of the Massachusetts Governorship.

Queen Victoria intends, while visiting Inverlocky Castle in the autumn, to ascend Ben Nevis and picnic near the summit. The Empress Eugenie will probably accompany the Queen.

Marshal Bazaine's trial is to begin on the 15th of September. Prince Frederick Charles of Prussia has sent the Marshal certain documents that will assist in his defence, *Tomo Dumas*, &c.

The Tichborne claimant lately won the third prize in a pigeon shooting match in Manchester, England. He aims at higher game than pigeons usually, but may be "trapped" himself.

The Baroness Burdett-Coutts and Mr. Coutts [illegible], senior partner in Coutts' Bank, have each given £15,000 to form a fund for the widows and orphans of those who die in the employ of the bank.

Rev. William H. Fuley, of Cambridge, Mass., denies the charges of immorality which were brought against him, but he, nevertheless, considered it prudent to lessen the population of the town.

A woman in Webster, Mass., warns liquor sellers, by an advertisement published in the newspapers, not to sell her husband intoxicating drinks "under the penalty of the law." She is spirited enough for him.

The *Pittsburgh Commercial* compares Mr. Groesbeck's recent letter to the effort of the verdant sportsman who, upon missing a calf he had fired at, said he "aimed to [illegible] it if it was a deer and miss it if it was a calf." The weak point in the comparison is that instead of missing the calf Mr. Groesbeck seems to have brought down several.

M. Paul Delarre has arrived in Paris from Japan, where he has been for some years. He is said by the Paris journals to be the favorite of the Mikado, and the individual who instilled progressive ideas into the mind of that Prince. M. Delarre is married to a Japanese young woman, who now accompanies him on his visit to his family in France.

Mr. P. V. Veeder, a professor in the Japanese Educational College, the Kaisejo, has addressed a letter to a newspaper upon the subject of the students who have returned from England and America after having followed the usual course of studies in those countries. Mr. Veeder's report is unfavorable to the system which, he alleges, can only result in failure and disappointment."

The Montgomery (Alabama) *Advertiser* remarks: "In less than four years the probabilities are that Ulysses S. Grant will walk to the scaffold or mount a throne." To which an editor at the other end of the political line, the Pittsburg *Commercial*, retorts: "The certainty is that in less than four days the lunatic who indicted the above should be in a straight jacket or mount a dunce-block."

INSURANCE.

INSURE AGAINST LOSS BY FIRE

FIRST—IT HAS COMPLIED FULLY WITH THE Oregon State Law.

SECOND—Its contracts in Oregon are backed under a re-insurance contract, by its own and the united assets of the

North British and Mercantile Ins. Co.

OF LONDON,

AGGREGATING OVER

$22,000,000 GOLD

offering the best security of any Fire Insurance Company or Association in the world.

THIRD—It can carry large risks, as its policies are re-insured by the above mentioned Companies, so that the PHŒNIX alone can carry the same line that all three companies would take separately.

FOURTH—It requires but one set of proofs in case of loss; thus giving the security of three Companies without the trouble of dealing with separate Corporations.

On these solid merits, viz: Capacity to carry the largest risks, the amplest possible security, the simplest adjustment in case of loss, and the prompt and equitable payment of all just claims,

CITY.

Reed's Panorama.—On Saturday evening last we witnessed the third and final exhibition of this magnificent work of art. A large audience was in attendance, and although the night was oppressively warm, the respectful attention paid throughout was flattering evidence of the satisfaction which was expressed on all sides. We feel justified in recommending this Panorama of the Great Northwest to our readers everywhere. There is a keen artistic appreciation of the grandeur of the theme evident in every scene. Col. Reed has succeeded most admirably in his arduous task. There is much to be said in commendation of this series of paintings, but we confess our inability to portray all of its many excellencies in the short space allotted to this notice. The views of Astoria possess peculiar merit. The associations which cluster about this city—ancient to us of the Northwest—lend added interest. Looking out to sea, there is the broad stretch of mighty Columbia, Baker's Bay indenting the coast; beyond, Fort Stevens, the light-house, a hint of long lines of breakers, cliffs crowned with the sombre green of the fir, and over all an evening sky, rich in color and suggestive of those gorgeous sunsets for which the Bar is famous. This first landscape impresses the spectator most favorably. After it comes a view of Astoria looking up the river, a cool morning sky with majestic Hood in the distance; a view of Hood from Knight's Landing (10 miles above Vancouver), with meridian sky; Cape Horn, one of the most imposing scenes of all, whose chief, rare merit is the fidelity, with which the reflection of the huge cliff in the water below is really remarkable. Castle Rock, the lonely and precipitous, which challenges the wonder of the most indifferent, is followed by a handsome painting of the Old Garrison at Middle Cascades. The bold crags of the Upper Landing, Tooth Bridge and the Islands of the Columbia are all faithful representations of Nature. The latter, we believe, is regarded by the artist as the most meritorious of any in the whole panorama. It is certainly picturesque, and the warm, evening sky which here appears is extremely beautiful. We cannot speak at length of the other scenes. Mts. Baker Rainier and Shasta are painted with wonderful accuracy. In fact Col. Reed has excelled himself to all his snow peaks. They form the richest part of the entertainment, perhaps. The views of Portland, East Portland, Salem, Oregon City and Roseburg, a bird's-eye view of Wallamet Valley; a charming Indian summer scene at Rocky Point—these passed, we reach the renowned lava beds, famous forever as the scene of some of the bloodiest tragedies in all the history of Indian warfare. We shall not attempt a description of these pictures: Captain Jack's cave, camp on Tule Lake, and the massacre of the Peace Commission. They must be seen to be appreciated. The view of Crater Lake alone is worth the price of admission.

We take pleasure in recommending this panorama to our patrons throughout this State and the East. In it they will find truthful renderings of the marvelous regions they profess to represent. It is a worthy enterprise, and no doubt will also be remunerative. We understand that it is the intention of the managers to proceed overland to the Eastern States. We are proud of our ability to send forth such a handsome advertisement of our State.

Get Vaccinated.—We are truly gratified to note that the Board of Health of Portland, consisting of Mayor Failing, Councilman Story and Chief of Police Lappeus, have made arrangements by which vaccination will be administered to the public *free of charge*. Elsewhere we publish the official notice of the Board of Health in regard to public vaccination. Arrangements have been effected with Dr. C. C. Strong by which every person can be vaccinated who may so desire. Dr. Strong's office is in Dekum's building, room No. 5, second floor, where he can be found at professional hours, to attend to all who may call. The vaccine matter used is among the best which could be procured, so that the efficacy of the preventive cannot be called in question. No expense is attached to the individual; it is free to every one. All persons who have not been vaccinated are not only invited to call at the first opportunity, but are requested so to do. Vaccination is regarded among the medical fraternity as the safest precaution which can be observed, and the opportunity thus presented to protect citizens against the disease should not be slighted nor neglected a single day. Much complaint has of late been made that the authorities are not taking those precautions which the present extent of the disease would warrant. Those who neglect to call and get vaccinated can find fault with no one but themselves should they take the contagion. Let there be no delay.

Committed Suicide.—Our regular correspondent, writing from Lafayette under date of August 10th, contains an account of the suicide of a well known citizen of that place on last Saturday morning. The person who committed the terrible deed was named Ransom Higgins. The deed was committed with a rifle. Higgins arose early on the morning of the fatal day—about 5 o'clock. He carefully loaded the gun and went back to bed, taking the weapon along with him. He placed the muzzle between his eyes, cocked the piece with his foot and pulled the trigger with his toe. The ball took effect in the center of the forehead, and ranging back, tore through the brain and buried itself in the pillow. Literally, the top of Higgins' head was almost blown off. He died instantly. The noise aroused the members of his family and the neighbors, who, on hastening to the scene, found Higgins weltering in his blood, stone dead. The Coroner was summoned and an inquest held. The verdict of the jury was, that Higgins came to his death while under a fit of temporary insanity. Of late it is said that Higgins was greatly troubled and perplexed about his money. He was probably worth $20,000, and had $3,000 on deposit at one of the banks in Portland. It is thought that the rash act was caused by some financial difficulty, either real or fancied. Higgins leaves a wife and seven children to mourn his sudden and voluntary taking off.

School Prizes.—From the catalogue of the Bishop Scott Grammar and Divinity School, we learn that the following permanent prizes to excellence in scholarship have been established in that institution:

The Trinity Medal of $50, founded by the Rector of Trinity Church, Portland, Oregon, will be given at the Annual Examination to the pupil who shall stand highest in general scholarship, deportment and attendance for the whole year. The Deady Medal, of $25, founded by the Hon. M. P. Deady, will be awarded, on the evening devoted to Prize Speaking and Compositions, to the pupil who, in the judgment of the committee, shall rank highest in Declamation. The Wilson Prize, of $20 gold, founded by Dr. R. B. Wilson, will be given at the Annual Examination, to the *Day Pupil* who shall stand highest in General Scholarship, attendance and deportment. The Bishop Scott Prize will be given at the Annual Examination, as the *Second Prize* for General Scholarship, deportment and attendance, for not less than half a year. The Rector's Prize will be given at the Annual Examination as the *Second Prize* for deportment and attendance, for not less than half a year. The Amiza Prize, of $10, will be awarded at the Annual Examination, on the evening devoted to Prize Speaking and Compositions, to the pupil who, in the judgment of the committee, shall produce the best original composition on "The Early History of the Pacific Coast."

Early Breakfasting.—There is a certain circle in this city who have inaugurated a series of early breakfasting excursions to the summit of Robinson Hill. Some months ago the first party was organized, and a pleasant time was had. Everybody came away delighted with the idea—an original one, certainly. One morning last week a second excursion to the summit was held, the party consisting of 21 persons—quite a large gathering. A light wagon was brought into service for conveying the cooking utensils and eatables. Shortly after the arrival of the party at the camping ground two well-known young men set about to prepare the "fragrant mocha," and their knowledge of the art was proven by the quality of the coffee which was drank by the party of early breakfasters, all of whom have spoken in high terms of the article. The names of the young men, whom we will call R—— and R——, will be handed down to posterity as disciples of Blot, the professor of cookery. There was very little of the provender left, as the party, having sharpened appetites, disposed of it with little ceremony in a manner that would astonish a dyspeptic.

Church Furnishings.—In speaking of the furnishing of some portion of the new Trinity Church, which will be formally consecrated on the 31st inst., the *Churchman* says: "The 'Women's Guild' of Trinity Parish made proof of its ministry and usefulness in providing for the furnishing of the new church. There are now being made for this parish a Bishop and Rector's chair for the chancel, and also a lectern. These articles of furniture will be in keeping with the architecture of the building, the design and execution are very beautiful. The lectern is a double one made to turn and to raise and to lower. The contractor for the building, Mr. L. Therkelsen, makes this furniture, and is the generous means of giving the lectern to the new Church, in which he takes some justifiable pride. The font also, which the children of the Sunday School presented to the parish something more than a year since, is being very handsomely finished with emblems and texts. This expense the children again meet."

Thrown Out.—Last evening a young man named E. Waller was picked up on the road leading west of the city, a short distance beyond the suburbs, in a semi-unconscious condition. Evidently, from appearances, he had been thrown out of a wagon or carriage which he was driving. It is not known whether he was intoxicated or not, or whether the team Waller was driving took fright and ran off. We learn that Waller's team collided with a carriage in which were seated several persons, and that two or more were thrown out and more or less injured. At all events, Waller was found lying in the middle of the road, partially insensible, with one arm broken and severely injured otherwise. He was placed in an express wagon and brought to the city jail. Subsequently he was removed to a livery stable at the corner of Second and Washington streets. A physician was summoned, but the true extent of the injuries are unknown at present writing.

John L. Stephens.—The steamship *John L. Stephens* sailed from San Francisco for Portland last Saturday. She brings the following passengers: Benj. Stark and son, Gov. E. S. Salomon, Miss A. Schafer, J. W. Curran, Rev. J. Thompson, Rev. P. B. Helsler, Col. Bee, J. Brandt, R. Kinsey, E. S. Gordon, G. W. Hume, S. Harris, H. Hanson, DeWitt Clinton Jones, J. M. Fowler, Mrs. E. J. Bond, Mrs. M. Fowler, J. N. Draper, wife and 3 children, A. C. Angel and wife, W. Clark and wife, B. J. Hawthorn and wife, N. K. Ross and wife, C. Gartside, Jas. Gartside, Mrs. J. Gartside, Miss E. Gartside, Mrs. R. Niggerman, Mrs. M. J. Morgan, Mrs. E. E. Parson, G. W. Bowers and family, I. P. Burgess, wife and 7 children, J. A. Porter and son, S. W. Saley, Dr. G. E. Alexander, J. N. Burns, A. E. Miller, Miss M. E. Taylor, R. R. Rounds, P. Claveny, Mrs. J. Pontions, Mrs E. Goodnough, P. Webber, wife and 2 children.

Lucky Nimrods.—It is generally understood that when Mr. L. P. W. Quimby takes to the woods there is danger to all game birds and animals. As a specimen of the way in which that gentleman and his "associates and assigns" treat deer, take this: Quimby, Charley Prindle, H. S. Mitchell, W. D. Carter (an honest printer), and John P. Walker went out into the suburbs in the neighborhood of the Red House last Saturday evening, with dogs and guns, and there almost within the city limits started five deer. Now, you are about to say that they ought, in the ordinary couse of events, to have bagged one of those five. Well, in little more time than it takes to write this paragraph, they slew four out of the five, and then came back home, carrying their venison in huge disgust because in some way the fifth deer escaped. Quimby says next time he goes out he is not going to have any foolishness.

Leg Broken.—Mr. B. Branch, a well-known carpenter of the city, met with a severe fall on Saturday, by which one of his legs was broken, and he received other severe injuries. At the time of the accident Mr. Branch was working on the new brick building of Mr. Parrish on First street. A temporary scaffold had been erected on the outside of the building to enable the workmen to put on the ceiling. Mr. Branch and several other carpenters were on the scaffold, when a portion suddenly gave way. All the men were precipitated to the floor, a distance of about 15 feet. One of Mr. Branch's legs struck a piece of timber and was broken, and his body considerably bruised by the fall. None of the other men sustained any injuries worthy of mention. Dr. J. C. Kinney was summoned and set the limb. The injured man will probably not be able to resume work for some days.

Hauled Off.—In a few days more the little steamer *Oneatta* will be temporarily hauled off and placed on the ways for repairs. She is at present the fastest little craft on the river, but the owner is determined to add to her traveling facilities at least one-third. Her machinery will be overhauled and placed in the best running condition. The present dimensions of the wheels will be considerably enlarged, which, with the power, will greatly augment the speed of the craft. The owner says that when the *Oneatta* is ready to take the line again, he is determined that she shall make the trip from Portland to Vancouver in *one hour*. If he makes his word good, the *Oneatta* will get away with anything on the river.

Articles Filed.—Several days ago we mentioned the fact that a joint stock company had been formed in the city for the purpose of building a market in the burnt district. Last Saturday articles of incorporation were filed in the Clerk's office by the incorporators of the Multnomah Market Company—Messrs. F. M. Arnold, T. M. Richardson, Walter Moffett, J. A. Strowbridge and E. D. Shattuck. The capital stock is fixed at $40,000. The stock books will be opened in a few days, and the enterprise will at once assume a business-like appearance.

On the Track.—The Olympia *Courier* of the 16th says: "Officer McCoy, of Portland, arrived last evening from that city, with a requisition from the Governor of Oregon on the Executive of this Territory for the arrest of Stillman Lewis for the embezzlement of $451 from the Portland *Bulletin* office. The requisition was granted, and the officer left on the *Alida* to-day for Seattle, where he expects to find his man.

Choice Sheep.—Saxe Bros., of California, sons of Colonel Peter Saxe, the noted importer of blooded stock, who is now in this State with a number of blooded Durham bulls, shipped on the *John L. Stephens* twenty head of extra fine Merino bucks. These sheep have their fleeces on. They will arrive here on Tuesday or Wednesday, and remain several days before being driven to Salem.

Ministers Located.—The *Statesman* of Saturday has the following: "By private letter received in this city from Salt Lake City, we learn that Rev. C. C. Stratton, formerly of the Oregon Conference, is again located at Salt Lake City for the coming Conference year. Rev. Clark Smith, also formerly of this Conference, is stationed at Beaver, two miles south of Salt Lake."

Lay Delegates.—At a meeting of the vestry of Trinity Church, Portland, held on the evening of the 11th inst., the following communicants of the parish were chosen Lay Delegates to the Convocation: Hon. M. P. Deady, Dr. R. B. Wilson and Dr. R. Glisan; also, Capt. Geo. H. Flanders, Mr. R. Weeks and Mr. Edwin Russell, substitutes.

General Rehearsal.—There will be a general rehearsal this evening at 7:30 sharp, at the Masonic Hall, by all those who are to participate in the concert, which will be given to-morrow evening in aid of the sufferers. This will be the last rehearsal before the concert, and a full attendance is desired.

Fire Alarm.—At half past 10 o'clock last night an alarm of fire was sounded from Columbia No. 3's and Multnomah No. 2's, which was quickly responded to by the Department. Their services were fortunately not required, the alarm having been false.

The Dallas *Republican* is informed by Mr. Cary, Agent of the Continental Life Insurance Company, that one D. A. Scott, a Special Agent of the same company in Oregon, has "defaulted" to a considerable extent and people are cautioned not to trust him.

They Mean Business.—The corporators of the Multnomah Market Company will commence soliciting subscriptions to stock to-day. We are informed they mean business.

Went to Sea.—The steamer *Oriflamme* arrived at Astoria on Saturday evening, and passed out to sea on Sunday forenoon.

For this Port.—The American bark *Wetterhorn* sailed from San Francisco on Wednesday last, bound for this port with a full cargo, consigned to J. McCraken & Co. This vessel is under charter to Laidlaw & Gate to carry a load of grain to Europe.

Reserved Seats.—The public are respectfully requested to bear in mind that reserved seats can be obtained at Gray's Music Store for the relief concert this morning after 10 o'clock. No extra charge will be made.

PERSONAL.

Hon. Benj. Stark, of New London, Conn., is on board the steamer *John L. Stephens*, and will arrive at Portland on Tuesday evening. He is accompanied by his son.

Rev. Jessie D. Peck, D. D., formerly of San Francisco, and lately elected Bishop of the Methodist Episcopal Church, who was detailed for duty on the Pacific coast, is coming this way.

Mr. Harry Edwards, the popular actor and accomplished elocutionist, who, in company with his wife, visited this city recently, arrived at San Francisco overland from Portland on the 15th inst.

Mr. A. E. Miller, who went below a few weeks ago to attend a meeting in San Francisco of teachers of the gymnastic art from different sections of the coast, is among the passengers on board the *John L. Stephens*.

We acknowledge the great pleasure of a call from Hon. J. F. Gazley, of Douglas county. He is in that excellent state of preservation in body and mind which can only result from the possession of a clear conscience and a fine farm.

Professor D. C. Gilman, President of the University of California, is making an extensive visit to this north coast. He has just returned to Astoria and the Sound country, and is to start in a day or two for a tour up the Columbia, which will occupy about all his time till his return to the bay.

Rev. J. H. Wythe, formerly pastor of the Taylor M. E. Church of this city, and who has now the charge of the Powell street Church, San Francisco, delivered a lecture at the Mercantile Library Hall before the Microscopical Society on Thursday evening the 14th inst. His subject was that of "Histology."

Among the passengers who departed for San Francisco on the *Oriflamme*, we observe the name of Mr. J. M. Caywood, Sheriff of Multnomah county. Mr. Caywood goes East on a brief visit to his parents and friends in New Jersey, after a prolonged absence of 23 years. He will not return before the latter part of October.

Hurgren & Shindler have re-opened in their former warehouse, the Lutheran Church, Fifth street, near the U. S. Custom House, where they will operate till a permanent business place is ready. They are prepared to fill orders for furniture and all kinds of bedding, including first-class hair mattresses and the celebrated woven wire mattress, children's perambulators, &c., &c. Being desirous of settling up their affairs speedily, any one indebted to this firm is requested to call and give them the use of their means.

Why linger in blissful ignorance? Why do you wander about seeking a place where they keep the largest and finest stock of Summer Clothing? Why pay high prices for goods when the fact has been long established that the great firm of J. KOHN & Co., 91 Front Street, sell Clothing and Gents' Furnishing Goods so cheap? They keep the best, they sell the cheapest, and what more can be asked?

All the year round, *Sheridan's Cavalry Condition Powders* should be given to horses that are kept up. To horses and cattle that graze in summer they should only be given in winter and spring.

Officers and soldiers who served in the army, physicians, surgeons, and eminent men and women everywhere, join in recommending *Johnson's Anodyne Liniment* to be the best internal and external family medicine ever invented. That's our experience.

No man can "put it off until to-morrow" with safety. Coughs, Colds and Bronchitis should be treated *at once*, if the sufferer desires to avoid the lingering terrors of consumption. Dr. Wistar's Balsam of Wild Cherry will effect these cures as thousands have attested.

Obscure Diseases, no matter of how long standing, and without regard to the sex of the sufferer, are cured without danger or inconvenience by Helmbold's Ext. Buchu, the great Diuretic, which acts specifically upon the Kidneys, Bladder, and auxiliary organs. No other preparation possesses the fully developed merits of Helmbold's Extract. It is the only genuine Buchu, and it never fails. John F. Henry, New York, Sole Agent.

For Throat Diseases and Affections of the Chest, "*Brown's Bronchial Troches*," are of value. For Coughs, Irritation of the Throat caused by cold, or Unusual Exertion of the vocal organs, in speaking in public, or singing, they produce beneficial results.

Teeth like orient pearls set in cushions of rose,
A breath like the perfume the toilet bestows;
These are the charms to win hearts when all other
charms fade.
But they can't be preserved without Sozodont's aid.

OUT-DOOR SPORTS.

Cricket match next Saturday between the married and single elevens of the cricket club on the grounds in East Portland.

The trotting race at Lute Lindsey's park, east side, last Saturday afternoon, drew quite a number of lovers of this character of sport. Mr. C. Ennis entered Honest Anee, and Mr. Lute Lindsey entered American Boy. The result was as follows:

Honest Anee	1	2	2
American Boy	2	1	1

Time—2:50, 2:55½, 2:56.

As each horse behaved badly in different heats the judges decided the race a draw.

The foot race which was announced to come off at the race track on Saturday afternoon between J. J. Kearney and B. P. Collins, was one of the most attractive features, and drew a large crowd. The distance run was 100 yards. The wager was $50 on a side. In addition several hundred dollars changed hands on the result. The race was very closely contested throughout the distance, neither claiming the superiority in point of speed. Judges decided that both came out exactly even, and therefore declared a "draw race." The stakes in every instance were returned by the holder to the owner and no bets were claimed. The same parties will run another race for the same distance ten days from last Saturday for $500 on a side, with $100 forfeit.

COOS BAY ITEMS.

For the following we are indebted to our regular correspondent, who writes from Empire City, under date of August 12th:

The amount of coal shipped the past week was 1,200 tons, and of lumber 200,000 feet.

Sheriff Owen has taken unto himself a wife—an event that may be of interest to a few of your readers.

Robert McDonald, a logger on Catching slough, had his hand badly crushed by a log falling on it last Thursday.

The second trial of Geo. W. Sleeper, the defaulting Sheriff who is now enjoying the hospitality of Watkinds at Salem, will take place here at the September term of court.

Wells, Fargo & Co.'s office is giving much satisfaction to merchants in this vicinity. The office has been established but a short time, and Jay, Tuttle & Co., are the agents.

In a recent issue of your paper you stated that the Good Templar Lodge had received an organ. That was a slight mistake. The O. G. T. Club are the recipients of the instrument and are in possession of it.

The arrivals for the week ending to-day were the steamer *Eastport*, schooners *Elida*, *Elmorah*, *Big River*, *B. H. Ramsdell* and *Golconda*. Sailed—brig *Sheet Anchor*, schooners *Anaga*, *Lovett Peacock* and *Clara Light*.

Some people may become excited over the "terminus" of the Northern Pacific Railroad, on Puget Sound, but it does not disturb Beck & Waldman, corner Front and Washington streets, in the least, as they intend to pursue the usual course to their customers, and that is to sell goods at prices which will enable those with limited means to provide themselves with good clothing at a very small outlay of money. Parents should bring their children to this house for neat-fitting suits.

Business Resumed.—D. H. Hendee, photographer, who was one of the losers by the late fire, is now fixed up and ready for action at the same old place—corner of First and Morrison streets. Give him a call. Prices to suit the times.

The Beginnings of Sickness.

Never trifle with what are called small ailments. A disorder easy of control at first, if neglected for a few weeks may become a mortal disease. Be especially careful not to let debility gain upon you, for it is the door through which all maladies enter the system. If you feel languid, inert, and to use a common expression, "as if there was no life left in you," resort at once to Hostetter's Stomach Bitters. That great vegetable tonic will supply the vitality you so urgently need. It is nerve food. By its tonic action the stomach is so invigorated that digestion becomes regular, easy, perfect; while its mild, cathartic properties relieve the bowels from obstructions, and its alterative operation beneficially affects all the secretive organs. For the miseries of dyspepsia, and they include almost every unpleasant feeling that belongs to physical disease and mental wretchedness, this potent tonic is a certain and speedy balm.

COLEMAN'S EUCALYPTUS

Dr. J. S. Coleman's Compound Extract of Eucalyptus is a preparation combining all the valuable medical qualities of the Eucalyptus, which is cultivated in nearly every California garden for its medical utility, having become the household remedy for all diseases of the KIDNEYS, BLADDER and URINARY CANAL, and SEMINAL WEAKNESS. It seems to have a direct affinity for the GENITO-URINARY ORGANS and their surroundings, and cures them by its alterative, healing and balsamic properties more effectually than any other known remedy.

It is an invaluable remedy for all diseases of the mucous and serous membranes, such as BRONCHITIS, HACKING COUGH, NAUSEA DURING PREGNANCY, DYSPEPSIA, LEUCORRHEA, etc.

This preparation is the result of Dr. Coleman's experiments with the medicinal properties of the tree in the U. S. Marine Hospital in San Francisco, in 1871 and 1872, where he had unusual facilities for testing the various methods of preparing the remedy, and its uses. It can be relied upon as certain to give the best results, and hundreds of testimonials of its efficacy can be seen at his office, 405 Kearney street, San Francisco.

COLEMAN'S DOUBLE EXTRACT OF EUCALYPTUS is a powerful, yet harmless, febrifuge, and is a special preparation for the treatment of the malarious fevers of our interior valleys, and is warranted to cure any case of FEVER AND AGUE treated with it according to directions, while the baneful results of the usual Quinine and arsenical remedies of those diseases are entirely avoided.

FOR PHYSICIANS, Coleman's Fluid Extract of Eucalyptus in 1-lb bottles.

EUCALYPTUS Beware of Imitations and take none but COLEMAN'S. For sale everywhere, and by HODGE, CALEF & CO., Wholesale Druggists, Portland. Sole Agents for Oregon.

THE SPITZBERGEN DRAMA.

SEVENTEEN WHALERS PERISH IN THE ICE.

Writing from Stockholm, on July 17, the correspondent of the London *Standard* says:

"The sad news of the death of the seventeen Norwegian whalers, frozen in at the Spitzberg Islands, has now been confirmed beyond a doubt. Capt. Mack, who penetrated into the Isfjord, in the end of June, has now sent home the journal found in one of the houses there, the eloquent laconism of which initiates us into the world of suffering and despair the unfortunate men had to go through before death put an end to their miseries. What is most horrible of all is the impression which the perusal of this mournful message forces upon us, that a little energy and knowledge how to take care of themselves would have been sufficient to keep alive all these poor victims of an Arctic Winter's inclemency. As the entries in the journal make us believe, no serious and continuous activity was kept up, though the men must not have been ignorant that hard work is the best preservative against that dreaded foe of northern life, the scorbut. It is owing to Prof. Nordenskiold's exertions to keep his men constantly at work, even when there was no necessity for it, that we have only to record one death from scorbut among the sixty-seven members of his expedition. But at Isfjord, unhappily, there was no experienced leader to warn against quiet inactivity, which, under those latitudes means death. Those poor sailors and fishers perished victims of their ignorance, and probably of their carelessness. Capt. Mack reports that it appeared that they had not known how to make proper use of the comfortable house in which they were quartered; instead of dividing among themselves the rooms of their spacious dwelling they all crowded together into one, which, moreover, bore traces of utter neglect and uncleanliness. The large stores of preserved potatoes and other vegetables were left nearly untouched, the men probably not knowing how to manage this kind of food.

The story of the struggle is soon told. On the 16th September, last year, six Norwegian ships, with their crews of together fifty-seven men, were frozen in on the north-eastern coast of the Spitzbergs, at Gray Hook and Welcome Point, eighteen and twenty-four English miles respectively from the Winter quarters of the Swedish polar expedition at Mosel Bay. Their provisions being calculated to last only up to the 1st of December, they applied to Prof. Nordenskiold for assistance, and were allowed by him to dispose of the house and stores accumulated at Isfjord. Consequently, seventeen men, with two small open boats, left Gray Hook on the 7th of October, crossing the ice westward, until they found open water, and finally reached Isfjord in their boats on the 14th October. The remaining forty-one men prepared themselves to pass the winter either in their own ships at Gray Hook, or with the Swedish expedition at Mosel Bay, when, happily, in the first days of November a heavy storm broke the ice and made their escape possible. Thirty-nine men were thus able to reach the Norwegian port of Tromsoe; only two, the old Captain, Mattilas, and his cook, would not abandon their ship, which was not insured, and have now been found dead in a boat, probably on their way to Mosel Bay. The ship was totally crushed by the ice.

The entries of the journal found at Isfjord begin with the 7th October, 1872, and are regularly continued every day until 3d March this year. No kind of occupation, nor any undertaking on the part of the men, is reported, except a few hunting parties, by whom two foxes and a few reindeers were brought home. Darkness, however, soon prevented all further hunting expeditions, and on the 7th of November the journal reports: 'Hunting totally abandoned, by cause of the [illegible].' The meteorological observations were regularly made and annotated five times a day. The temperature, which was very hard in October, the [illegible] running down to 19 degrees below Celsius on the 21st, was milder in November, being 2 degrees on the 8th, and varied between 0 degrees above to 77 [illegible] until the 5th of January, when it begins to go down again. The lowest [illegible] 32 degrees below, is observed on the 14th of February at 4 o'clock A. M. No mention is made of sickness or disease before the 8th of December, when it is said: 'One of the crew sick since eight days;' but from this day the complaint repeats itself with sad monotony: 'No improvement' in the state of the sick. On the 19th it is said: 'Two men constantly in bed; nearly all suffer of the disease.' Though no indication is given what kind of illness is meant, there is no doubt that it was scorbut. The first death is recorded on the 19th January in the following words: 'Tonnes Pendersen, who was taken ill the 5th of this month, was called to the Lord this morning at 3:30, after a painful illness; this afternoon died also Hendrik Hendriksen, who was taken ill on the 19th December.' The 3d of February only three men were in good health, and the journal repeats every day 'No improvement.' The 20th February we read: 'To-day we have seen the sun for the first time in the year 1873.' A new death is recorded the following day: 'To-day the Lord again called to heaven one of our comrades, Niles Larson, after an illness of eighty-two days' Two days later the entries are made by another hand, who writes on the 25th: 'I have now only one man in good health to look after the whole house. O Lord help us in our great distress!' And on the 28th he continues: 'This evening another of our men died; the Lord called him home from this place, so rich in suffering.' From this day the journal contains nothing but annotations of deaths until the 19th April, when the last regular entry is made thus: 'Martin Hansen, died the 19th April, at 6 A. M.' Then follows another hand, who writes: 'Peder Andreas Nilson, of Batsfjord, a red bonnet, Har T. Nitterhuk.' What these words, which have apparently been written under the influence of delirium, are meant to express will never be known, and the horrible fate of the poor sufferer who traced them can only be guessed. Did he struggle hours, days, or weeks among the sixteen corpses of his comrades, or did the deliverer come as he dropped his pen? Nobody knows, nor will ever know."

GENERAL NOTES.

A New York paper delicately flatters Sir Edward Thornton, the British Minister, by saying he is "as unassuming and unpretentious as a first class American citizen."

An Albany youth who stole his mother's watch, pawned it and went on a spree with the proceeds, came for forgiveness and got fifteen months in the penitentiary.

When it was known the other day in Dubuque that certain parties were to be married in church, a rejected suitor nailed up the doors, but he was promptly arrested and soused in the river.

The Chicago doctors say of their brother pill-giver, Dr. Johnson, to whose negligence Storey, of the *Times*, attributed his wife's death, that his character is too high to require any indorsement.

The Chicago *Times* thinks that "these small-fry towns may as well give in. The only successful rival of the Chicago blaze will be the final one when the elements themselves shall melt with fervent heat."

The present Duchess of Leeds was formerly one of the belles of Baltimore. As she is now a widow and immensely rich, it is recommended that some aspiring American youth should go over to England and woo and win her back to her native country. She is only ninety-six.

The Shah, while in England, is said to have hinted a wish to see some one executed in the English manner. Being told that such things could not be done in England except in due course of law, he met the objection with the ready offer to lend some from his own suite who might be operated upon without fear of legal questions.

"My experience as a medical man, says a New York physician "shows that bald-headed men are seldom or never drunkards, and that moreover a bald-headed man is seldom found in a lunatic asylum." To which an irreverent customer replies: "Bald-headed men, it may be explained, seldom drink at their own expense, and there are public institutions besides lunatic asylums."

We begin to feel a little kindly toward that rascally old aborigine, Captain Jack. We have read the speech in his own defense which he made at Fort Klamath. Without stopping to consider whether there is a word of truth in it or not, we are happy to say that every paragraph doesn't begin "Brothers!" nor is there the usual stock nonsense in it about the Great Spirit, which, with the other spirit called whisky, has so often been put in the red man's mouth. Captain Jack's address is not a bit like anything in Cooper's novels, and we are glad of it.—*New York Tribune.*

FINANCE AND COMMERCE.

Financial.

SATURDAY EVENING, August 16, 1873.

Gold in New York to-day, 115.

Portland Legal Tender rates, 85½ buying; 86½ selling.

Gold bars are quotable at 850 fine.

Wheat in Liverpool—Average California, 12s@12s 2d; Club, 12s 4d@12s 6d.

At the grain centers in the East bankers report a more active demand for currency for country than is usual this season of the year. The *Journal of Commerce* argues that this indicates a disposition on the part of farmers and dealers to remove to market and seaboard produce at an early day. This, in view of good crops anticipated, is a good move. Much of this will return with profits added before the heavy demand for money for the later fall trade. The coming eight weeks will find water and rail communications less obstructed than during the following ten. Better to sell what at present rates than to risk storage, shrinkage and waste for better rates. Besides money can be used more profitably in October and November than now, and wheat pays no interest in elevators or granaries. The "nimble sixpence" is always more productive than the "slow shilling." Keep the crops moving in their season and pay as you go. Thus interest is saved and purchases made much cheaper.

Our latest exchanges from San Francisco report "money abundant at most of the banking institutions, and obtainable at 1 per cent. per month on first-class security. The savings banks continue to make loans on real estate at 9@12 per cent. per annum." In view of this fact it would seem hardly probable that any severe stringency would effect our money market this season, but still there are those who adhere to the disagreeable idea that the scarcity of funds this season will be equal to what we suffered last year. At present the movement has not been of such extent as to make any impression on our financial affairs. With the large yield in our State we may reasonably expect that buyers will be more numerous than heretofore and that prices will be well up to what the demand markets will bear. The close of the season ought to leave many of our producers in good pecuniary condition.

A Wheat Corner.

The Chicago *Journal of Commerce* of August 7th describes a "corner" put upon the Wheat market in that city as follows:

During Wednesday and Thursday of the past week an effort was made to force up the price of No. 2 Wheat. This maneuver was attributed by some to a Canadian house backed by the Bank of Montreal, and by others to a ring of Milwaukee speculators. Whoever they were, the matter was managed with much skill and audacity, giving proof that even the sharp presedent men of Chicago may be occasionally overreached and outwitted. Wheat advanced with fearful rapidity and near a million bushels, nominally, changed hands at $1 40. Large quantities were sold at even higher rates. For some time, No. 2 was kept at $1 47@1 50. The general impression is that the manipulators of this "corner" realized at least $100,000. Indeed it is confidently affirmed by some of the Dailies that the ring divided $130,000 as the fruits of their skillful maneuvers. As a general rule these unnatural speculative efforts, which border so close on gambling, react on the managers, and prove rather injurious to their purses, as well as their business characters; in this case, however it may affect the reputation of the managers, it is generally conceded that it was made pecuniarily profitable.

After such a fearful leap of from 20c to 25c per bushel in a day or two, within a few hours after this unexpected rise, the prices settled back to the range of the opening week. No. 1 hard at $1 25; No. 2 (do.) at $1 17½@1 20. Near the close of the week city millers were purchasing more freely of Wheat hard and fit for immediate grinding.

Miscellaneous.

The visible supply of grain in the United States and Canada, July 26th, was 18,638,952 bushels, embracing 4,742,935 bushels of wheat, 9,967,876 bushels of corn, 4,635,789 bushels of oats, and 92,352 bushels of barley.

The exports of breadstuffs and provisions from the ports of Portland, Boston, New York, Philadelphia and Baltimore for the week ending August 2d, were: Flour, 33,800 barrels; wheat, 567,000 bushels; corn, 341,000 bushels; rye, 45,000 bushels; pork, 4,398 barrels and tierces; bacon, 3,679,000 pounds; lard, 1,074,000 pounds.

Eleven thousand bushels of the new crop of wheat had been received at the Corvallis warehouses up to Friday, the 15th inst.

Mr. James Hamilton informs the *Democrat* that the wheat taken in this season, so far, is of the finest quality, being almost totally free from chaff and dirt. He attributes the cleanliness of the grain to the fact that but few headers have been used, most of the farmers having cut their wheat with reapers.

A Roseburg paper says: "The threshing is now pretty well advanced, and the general opinion, as we derive it from the farmers, is that the crops are more than the average, acre for acre. The oats are largely in excess of the yield of the last five years, and the wheat is at least equal. The increased quantity of ground sown will give us a crop which, if we can get it to market for a reasonable rate, will, at the present price, add much to the wealth of this county."

The *Guard* says the yield of wheat in Lane county will not fall short of 400,000 bushels, which at 60 cents would amount to $240,000. Add to this the oats, barley, hay and vegetables grown this season, and the cash value of the crops swells into the fabulous. Farmers of Lane county, you have untold wealth in your rich farms. Take courage for the future.

The steam tug Astoria took two vessels to sea on Thursday of last week, the Garibaldi, Captain Noyes, loaded with lumber for Shanghai, and the barkentine Melancthon, Captain Patterson, loaded with lumber for San Francisco.

The John L. Stephens sailed from San Francisco for this port at the usual hour to-day.

The only two sea-going vessels now in this port are the Lieut. Maury and the Clara Louise.

The Falkingburg is loading with bolts at some point down the river.

The following vessels are on their way here from Europe: British bark Vesta, from Liverpool, to Janion & Rhodes, 130 days out; British bark Sylhet, Liverpool, via Victoria, to Janion & Rhodes, 97 days out; American ship Loretta Fish, from Shields, via Callao, 158 days out.
